

Good Transit Saves Money for Illinois Households

In Northeastern Illinois, households spend an average of \$9,472 on annual transportation costs.

In the 2nd Senate District, households spend on average \$6,648 per year.

 - Major Highway
 - State Representative District Boundary

Where public transit is unavailable or inadequate, households spend as much as 29% of their income on transportation.

In transit-rich areas, this can fall to 13%.
